

Youth M.O.V.E.

A community and outreach-based mental and behavioral health program for Youth ages 13-20.

A Place to Belong

North American Family Institute

Youth M.O.V.E. (Motivating Others through Voices of Experience) New Hampshire works as a diverse statewide collective to advocate for youth rights and voices in youth-serving systems.

Youth M.O.V.E. New Hampshire is a statewide Chapter of Youth M.O.V.E. National, which is a nationwide, youth-driven, membership organization that is dedicated to improving services and systems that serve youth such as mental health, juvenile justice, education, and welfare. Through our partnership with Youth M.O.V.E. National and NFI North, Youth M.O.V.E. New Hampshire advocates for young people to utilize their power and expertise to foster change in their communities and in their own lives while empowering them to pursue positive outcomes and a brighter future.

Helping youth succeed through peer support and partnership.

M.O.V.E. stands for Motivating Others through Voices of Experience. And that's exactly what we do! Our young staff and volunteers share their voices of experience through advocacy and leadership activities to change the very systems they have lived through. The organization engages young people to be equal partners in the process of change, while coaching others in the area of authentic youth involvement.

“We believe that every young person who enters a youth-serving system should be empowered through opportunities, involvement, and leadership. Working as a collective voice to advocate for youth rights within all systems that serve young people in New Hampshire allows us to guide and support the redevelopment of these systems.”
